

**Specification Amendments:**

Please amend the specification as indicated:

Please replace paragraph [0030] with the following paragraph:

[0030] FIG. 4 is a block flow diagram depicting another method 70 for use by the system. Once downloaded, the player may print a play sheet, as shown at step 72. Play sheets may include game elements associated with a specific broadcast event. For example, play sheets may include game cards and trade tickets associated with a specific football game being broadcast. The user may collect a pool of money from players, as shown at step 73. The game pieces are distributed to players, as shown at step 74. The pool may act as the source of rewards for those who win the game. Players may play the game, as shown in step 76, by observing the broadcast and responding to events within the broadcast in accordance with game rules.
